OBJECTIVES

Passionate Computer Science student with a strong foundation in programming and problem solving. Interested in software development, system reliability, and building efficient technical solutions. Looking for opportunities to apply my skills, learn new technologies, and contribute to real-world projects.

EDUCATION

Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology, Chennai
B.Tech in Computer Science and Engineering

Aug'23 – Jun'27
CGPA : 8.9*

Prathibha Junior College, Suryapet
Board of Intermediate Education (MPC)

Jun'21 – Mar'23
CGPA : 9.6

EXPERIENCE

Full Stack Python Intern

Aug'25 – Sep'25

Joy Innovations Pvt Ltd, Vellore

- Developed backend modules using Python and Django framework.
- Implemented authentication system for user login and registration.
- Designed responsive frontend pages using HTML, CSS, and Bootstrap.
- Integrated SQLite database for storing user and application data.

SKILLS

Technical Skills:

- Programming Languages: Java, Python
- Backend Development: Django
- Web Development: HTML, CSS, JavaScript
- Databases: MySQL
- Tools & Platforms: Git, GitHub

CERTIFICATES

- DBMS Course (Scaler): Covered fundamentals of database design, normalization, and SQL queries.
- Operating Systems (Infosys Springboard): Basics of OS concepts through CompTIA IT Fundamentals.
- Java Essentials (Infosys Springboard): Completed core Java fundamentals course.
- Networking (Infosys Springboard): Basics of networking concepts, OSI model, and TCP/IP.

PROJECTS

Internship Portal (Django Project)

- Developed a Django-based web portal for managing internship postings and student applications.
- Implemented secure user authentication and session management.
- Built responsive frontend using HTML, CSS, and Bootstrap.
- Integrated SQLite database to manage internship listings and student data.
- Designed and structured multiple web pages to allow users to view internship details and apply through the portal.

Amazon Clone (Frontend Project)

- Designed a responsive e-commerce website inspired by Amazon.
- Implemented product layout, navigation bar, and UI components.
- Built using HTML and CSS with responsive design.
- Developed the layout specifically for desktop screen resolution with structured page alignment.
- Organized webpage sections such as header, product grid, and footer for a structured user interface.

ACHIEVEMENTS & EXTRA-CURRICULAR ACTIVITIES

- Passionate about learning new technologies and software development.
- Regularly practice programming and problem-solving to improve coding skills.
- Collaborated with peers on academic projects, strengthening teamwork and communication.
- Participated in college-level coding competitions and hackathons.
- Active member of the college Arts Club and participant in cultural events.
